Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicant's amendment and accompanying remarks filed January 31, 2007 are acknowledged.
2. Examiner acknowledges amended claims 1-2.
3. Examiner acknowledges newly added claims 14-16.
4. The rejection of claims 1-4 under 35 U.S.C. 102(e) as being anticipated by Kim et al., U.S. Patent Number 6,808,826 is overcome by applicant's amendment.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

6. Claims 1, 3-13 and 15 are rejected under 35 U.S.C. 102(e) as being anticipated by Kim et al., U.S. Patent 6,984,462.

Kim discloses an organic electroluminescent device comprising an anode and a cathode and at least one light-emitting layer that comprises a double spiro compound with a structure such as

The reference claims disclose that the double spiro compounds can be used in the light emitting layer, hole injecting or transporting layer and electron transporting layer. The Kim reference reads on the instant claims when n is 0 to 1, the linking group is

wherein R in the linking group is hydrogen and R for the instant claims is a non-substituted fused ring group (fluorene) or hydrogen.

7. Claims 2, 14 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art does not teach or suggest the recited luminescent spiro-dimer, further including the linking group K is

or

Response to Arguments

8. Applicant's arguments filed January 31, 2007 have been fully considered but they are not persuasive. Applicant argues that the present claims relate to a spiro-dimer wherein the two groups make up the dimer individually include two fluorene units linked together. Compounds 100 and 101 of the Kim '462

Art Unit: 1774

read on the instant claims when R (for the linking group) of the present claims is hydrogen and the R groups attached to the spiro groups are fluorene units (fused group). The reference also

reads on the instant claims in that at least one  is present in the linking group with R₁ and R₂ are both hydrogen. The rejection is maintained.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 1774

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
